

# Protect your Business with Knowledge in Cyber Security & Contractual Agreements

ASPRI together with Shook Lin & Bok LLP and Cyber Security Agency of Singapore is organising a knowledge-sharing seminar focusing on risk mitigation issues that is common to the Process sector. We hope this seminar helps members better protect their business through latest cyber security trends and increase their knowledge in the legal aspects of contractual agreements.

Find out about,

- Practical insights on “back-to-back” arrangements from a legal perspective
- What to do during a “Ransom attack”!
- And many more!

## HIGHLIGHTS

1

### **"Back-to-back" arrangements: How well have you covered your "back"?**

By Shook Lin & Bok LLP

- What happens when things go wrong?
- Negotiation of key terms
- Preparation of documentation

2

### **Cyber Security Trends: How secure is your current safeguards?**

By Cyber Security Agency of Singapore

## SPEAKER PROFILE

### **Mr. Johnny Lim, Partner (Shook Lin & Bok LLP)**

Johnny's areas of practice are in mergers and acquisitions, corporate finance and a broad range of corporate matters, ranging from initial public offerings, secondary fund raising, joint ventures, restructuring and privatisations. He serves as legal adviser to Singapore Transport Association as well as Tiang Lim Association.

### **Ms. Debby Lim, Partner (Shook Lin & Bok LLP)**

Debby has a broad commercial practice with overlapping strengths in banking and finance disputes, insolvency and restructuring, domestic and international arbitrations. She has also acted in construction and property-related disputes, shareholder disputes as well as matters involving fraud, asset recovery and investigations.

### **Mr. Yum Shoen Yih, Deputy Director (Cyber Security Agency of Singapore)**

Shoen Yih was responsible for cybersecurity at the Ministry of Defence (MINDEF) headquarters. His views to cybersecurity are derived from his extensive military (30 years) experience and aim to keep up with current and emerging threats. His security practices enabled his organization to be resilient to achieve its national security missions. In his cybersecurity appointments, he has presented in international and local conferences in Singapore as well as overseas.
